TERMINAL INSULATORS

We manufacture a complete line of Battery Terminal Insulators. These Insulators are designed for use in marine, commercial, industrial and automotive fields.
Our Battery Terminal Insulators offer solutions in single and multiple cables and are available in various materials, sizes and colours #.

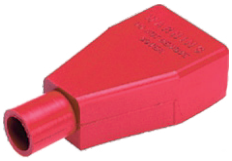

Part No.	Cable Entry Size
409N2	7.2mm [.29"]
409N3	12.7mm [.50"]
409N9	7.6mm [.30"]

409 Series

- The 409 Series is designed to protect stamped wrap battery terminals.
- Maximum Post Height: 21.0mm [0.83"]
- Cable Entry: 8 ga - 1/0 ga

Part No.	Cable Entry Size
415N6	9.4mm [.37"]
415N7	11.2mm [.44"]
415N8	12.7mm [.50"]
415N9	15.9mm [.62"]
415N0	19.1mm [.75"]

415 Series

- The 415 Series is suited to protect tapered style battery terminals.
- Maximum Post Height: 18.8mm [0.74"]
- Cable Entry: 1/0 ga - 2/0 ga

Part No.	Cable Entry Size
416N9	16.0mm [.63"]

416 Series

- The 416 Series is a popular solution for battery terminal installation.
- Maximum Post Height: 19.3mm [0.76"]
- Cable Entry: 16.0mm [0.63"]

Part No.	Cable Entry Size
417N9	12.7mm [.50"]

417 Series

- The 417 Series is a snap on insulator which can be removed without cable.
- Maximum Post Height: 23.1mm [0.91"]
- Cable Entry: 1 - 1/0 ga

Part No.	Cable Entry Size
430N7	14.2mm [.56"]
430N8	17.3mm [.68"]

430 Series

- The 430 Series is designed to protect tapered style battery posts.
- Maximum Post Height: 21.1mm [0.83"]
- Cable Entry: 2/0, 3/0 ga

Part No.	Cable Entry Size
455N4	10.0mm [.4"]
455N6	12.7mm [.5"]
455N8	19.1mm [.75"]

455 Series

- The 455 Series is suited to protect a dual post battery, the insulator snaps easily onto the cable and can be fastened with a zip-tie.
- Accepts multiple cables of different sizes.

Part No.	Cable Entry Size
458N0	N/A

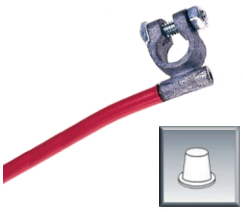

458 Series

- The 458 Series is designed for a dual post battery and the attached cover can insulate the post when not in use.
- Often used with 226 Series Insulator.

 # MoQ's May Apply

TERMINAL INSULATORS

500 Series

- The 500 Series is the popular choice for battery terminal protection.
- Available in left, right and dual entry cable options.

Part No.	Cable Entry Size
500L7	12.7mm [.50"]
500L9	17.5mm [.69"]
500R7	12.7mm [.50"]
500R9	17.5mm [.69"]
500D7	12.7mm [.50"]
500D9	17.5mm [.69"]
500B	N/A

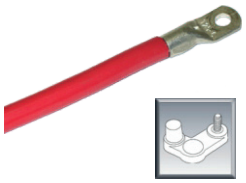

553 Series

- The 553 Series is designed to protect side post battery terminal connections.
- Featuring a retaining loop that keeps the insulator with the battery or cable.
- Available with 2 cable entries.

Part No.	Cable Entry Size
553X6	15.0mm [.59"]
553X9	22.9mm [.90"]

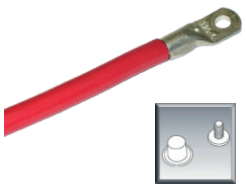

460 Series

- The 460 Series is a dual post battery insulator that specifically fits the Exide Group 32 marine battery.
- Featuring a tabbed finger grip for easy removal and allows for a secondary battery connection.

Part No.	Cable Entry Size
460N9	N/A

462 / 463 Series

- The 462 & 463 Series are designed to protect dual post battery terminals, used in the marine industry.
- Terminal connection centre to centre: 43.69mm
- The attached caps cover the post when not in use.

Part No.	Colour	Entry Size
462N0	Black	N/A
463N0	Red	N/A

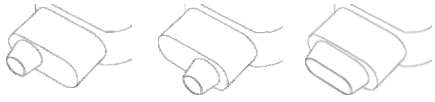

466 Series

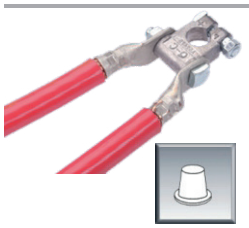

- The 466 Series has been designed to protect large heavy duty battery terminals.
- Available in left, right and dual cable entries.

Part No.	Cable Entry Size
466L1, R1	3.3mm [.13"]
466L2, R2	7.6mm [.30"]
466L3, R3	12.7mm [.50"]
466N9	Oval up to 4/0 ga

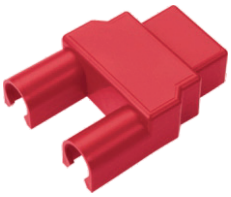

Left Entry *Right Entry* *Oval Entry*

468 Series

- The 468 Series protects large heavy duty battery terminals and has been designed to snap onto the terminal and cable allowing for easy access.
- Available in left, right and dual cable entries.

Part No.	Cable Entry Size
468L9	20.8mm [.82"]
468R9	20.8mm [.82"]
468D9	20.8mm [.82"]

TERMINAL INSULATORS

Part No. Black	Part No. Red	Cable Entry Size
730N1	731N1	(1) 7.9mm [.31"]
730N2	731N2	(2) 7.9mm [.31"]
730N3	731N3	(1) 12.7mm [.5"]
730N4	731N4	(2) 12.7mm [.5"]
730N5	731N5	(1) 15.8mm [.62"]
730N6	731N6	(2) 15.8mm [.62"]
730N7	731N7	Oval up to 4/0 ga

730 / 731 Series

- The 730 (Black) & 731 (Red) Series are suited to protect large wing nut type terminal connections.
- The top swivels to accommodate cables from various directions.
- Top insulator offers single, dual and multiple cable entries.

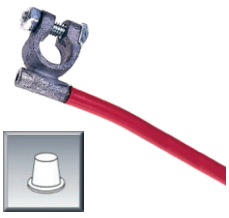

Part No.	Cable Entry Size
843L8	11.2mm [.44"]
843L9	12.7mm [.50"]
843R8	11.2mm [.44"]
843R9	12.7mm [.50"]

843 Series

- The 843 Series is designed to cover a tapered battery post.
- Available in left and right cable entry.
- Maximum Post Height: 20.1mm [0.79"]

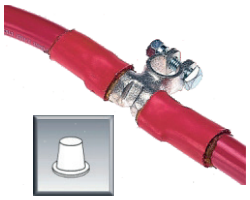

Part No.	Cable Entry Size
900L9	16.0mm [.63"]
900R9	16.0mm [.63"]
900D9	16.0mm [.63"]

900 Series

- The 900 Series is a popular solution to cover cast-on lead terminals.
- Available in left, right and dual cable entry.
- Cable entry can be cut and zip-tied for up to 4/0 awg.

Part No.	Cable Entry Size
974N9	20.3mm [.80"]

974 Series

- The 974 Series protects large battery terminal connections.
- Maximum Post Height: 29.9mm [1.18"]
- Cable Entry: Large -20.3 mm [0.8"] diameter

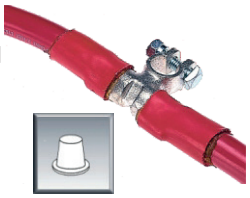

Part No.	Cable Entry Size
975D8	20.3mm [.80"]

975 Series

- The 975 Series is designed to protect large battery terminal connections.
- Features large cable entry for flag or right angle terminals.
- Cable Entry: Up to 4/0 ga

Part No.	Cable Entry Size
976N8	20.3mm [.80"]

976 Series

- The 976 Series is suited to protect large battery terminal connections, the triple cable entry allows for 3 cable connections.
- Cable Entry: Up to 4/0 ga
