

The MP16-10 stainless steel shore power inlet offers the perfect solution for a safe 16A power supply on your boat. This robust inlet is specially designed for maritime environments and provides optimal protection against corrosion. With an IP56 classification, it is water and dust-proof, ideal for use on the water. The shore power inlet complies with the ISO 13297 standard, ensuring reliability and safety when connecting shore power. The bayonet lock guarantees a secure connection, while the stainless steel design provides a stylish look on your boat. Easy to install and suitable for various boat types, this MP16 inlet makes connecting shore power a carefree experience.

- High quality waterproof shore power connection system IP56
- Marking CE

Article properties

ITEM NO.	MP16-10
MAX CURRENT	16A/250V
FINISH	316 stainless steel
PROTECTION CLASS	IP56

General ETIM Properties

ETIM Group	Domestic switching devices-EG000013
ETIM Class	Plug with protective contact for devices-EC001326
Name	Shore Power MP16 Stainless Steel Inlet
Brand	RATIO ELECTRIC
Product Series	Shore Power
Product Type	INLET
GTIN	08718375363386

ETIM specifications

For heavy conditions according to VDE	No
NEMA designation	Other
Nominal current	16 A
Nominal voltage	250 V
Number of poles	3
RAL-number	9006
Colour	Stainless steel
Suitable for protective contact pin	No
Connection system	Screwed terminal
Insert direction	Straight
Degree of protection (NEMA)	6P
Degree of protection (IP)	IP56
Construction type	Recessed mounted device plug
Halogen free	Yes
Material quality	Stainless steel
Material	Metal
Model	Other
